It is seen that the area of Kansas is ninetaen thousand square miles greater than that of all New England, New York, and New Jorsey, and that the area of Nebraska is -interly-five thousand miles greater than that of all the non slaveholding dates except California. Oregon is nearly equal in extention all New England, New York, Pennsyl vania, Ohio, and Indiana. It is possible that New Mexico and Meeilla will be embraced in one territorial organization by Congress at the present session, containing 289,000 square bulles—exceeding all New England, New York, Pennsylvania, Villo, Indiana, Jet Illinois. Washington exceeds in extent all New England and New York.
